# CANADIAN STATISTICS.

CENSUS OF 1890-91.

## INTRODUCTION.

### VOLUME SECOND.

This volume, the second of the series, comprises sixteen tables.

Table I. gives the results of the Census respecting the ages of the people. The ages under one year and thereafter to five years are given for each year. After five years they are given in quinquennial periods, this being the desire of the Registrar General of England communicated officially to all parts of the British Empire.

Tables II.-VI. deal with the living and are an analysis of Table I. separating the people into married, widowed, single, and blind and otherwise defective.

Tables VII.-XI. deal with the dead, showing ages, sex, civil condition, birthplaces, occupations and causes of death. The number of deaths recorded shows that the death rate in Canada is low. But there is every reason for the belief that the enumeration was well made, and corroborative evidence supporting the results of the Census is found in several directions.

The reported deaths for the several provinces are—

British Columbia.....	13·94	per 1,000 of the population.
Manitoba .....	10·36	" " "
New Brunswick .....	13·36	" " "
Nova Scotia .....	14·57	" " "
Ontario.....	11·30	" " "
Prince Edward Island .....	12·26	" " "
Quebec .....	18·91	" " "
North-west Territories.....	7·32	" " "
<hr/>		
Canada .....	14·10	" " "

Table XII. deals with the occupations of the living. The occupations are divided into six classes, arranged according to their natural order of precedence. The first class consists of the Primary Producers; the second of the Distributors; the third of the Modifiers; the fourth and fifth classes include those engaged in Personal and Domestic Service, and those engaged in Professional Service; the sixth class embraces those engaged in occupations not productive. In this latter class are Students of Medicine and Law, Nuns, etc., who are either preparing for future gainful occupations or are serving mankind without pecuniary recompense, or who, having served, have retired from active life.

Persons engaged in more than one occupation are assigned to that to which they appeared to attach the most importance or to that which they happened to be following at the taking of the Census. Persons, for instance, engaged in two occupations—one a manufacturing trade and the other a selling trade—the latter being the more important

# STATISTIQUE DU CANADA.

RECENSEMENT DE 1890-91.

---

## INTRODUCTION.

SECOND VOLUME.

Ce volume, qui est le deuxième de la série, comprend seize tableaux.

Le tableau I donne les résultats du recensement, relativement aux âges. A partir de moins d'un an jusqu'à cinq, les âges sont donnés pour chaque année. A partir de cinq ans, ils sont donnés par périodes quinquennales, conformément au désir du registraire général en Angleterre, communiqué officiellement à toutes les différentes parties de l'Empire Anglais.

Les tableaux II-VI se rapportent à la population et sont une analyse du tableau I, divisant la population comme suit—mariés, en veuvage, non mariés, aveugles ou autrement affligés.

Les tableaux VII-XI traitent des mortalités, indiquant les âges, le sexe, l'état civil, les lieux de naissance, les occupations et les causes de décès. Le nombre de mortalités rapportées montre une faible proportion pour le Canada. Nous avons toute raison de croire que l'énumération a été bien faite, et nous en avons une preuve évidente dans plusieurs endroits de cet ouvrage.

Le nombre de décès rapportés pour les différentes provinces est comme suit :—

Colombie Anglaise.....	13·94	par 1,000 de la population.
Manitoba.....	10·36	" " "
Nouveau-Brunswick.....	13·36	" " "
Nouvelle-Ecosse.....	14·57	" " "
Ontario.....	11·30	" " "
Ile du Prince-Edouard.....	12·26	" " "
Québec.....	18·91	" " "
Territoires du Nord-Ouest.....	7·32	" " "
<hr/>		
Canada.....	14·10	" " "

Le tableau XII traite des occupations. Elles sont divisées en six classes. La première comprend les producteurs de matières premières ; la seconde, les agents distributeurs ; la troisième, les fabricants ; dans la quatrième et la cinquième classes sont comprises toutes les personnes engagées dans le service personnel et domestique, et celles aussi engagées dans le service professionnel ; la sixième comprend les occupations non-productives. Dans cette dernière classe sont compris en outre les étudiants en médecine et en loi, les religieuses, et toutes les personnes qui se préparent à entrer dans des professions qui plus tard leur seront rémunératives, ou toutes les personnes qui se dévouent pour l'humanité, sans en attendre compensation, ou encore toutes les personnes qui, après avoir travaillé, se sont retirées complètement de la vie active.

Pour les personnes ayant plus d'une occupation, nous avons entré celle qui semblait être la plus importante, ou encore celle que cette personne-là suivait lors du recensement. Prenons, par exemple, une personne ayant deux occupations, une dans les industries

in their estimation would be put in with Industrial Establishments as manufacturers, but would be given under the head of Trade in Occupations. Hence, it happens that discrepancies necessarily arise between tables such as that relating to occupations and that relating to hands employed in Industrial Establishments. Fishermen are often also farmers and pursue the two occupations, giving themselves in the Census schedules as farmers because of the relatively greater importance of their vocation on land.

In the introduction of the second volume of the Census of 1881 appears the following remarks: "Details in reference to the employments of the people are supplemented in the third volume of this work under Industrial Establishments, but it must be remembered that there cannot be any precise agreement between the two statements. They having reference to two states of fact, the one giving the number of hands employed at the several industries, it may be a week, a month or a year; the other giving the occupation to which the person devotes the principal part of his time."

These observations apply with equal force to the returns of the Census of 1891.

A very considerable discrepancy exists with respect to boys under the heading "Industrial Establishments" and under the heading "Occupation." In the first case they are given with the other hands in the Industrial Establishments, and in the second instance they are returned as going to school, which is their chief occupation.

These divergencies appear to be unavoidable.

The general rule followed has been that provided by the directors of the Census of England.

An effort has been made to give for the first time the occupations of the female part of the population. The returns show the number of females engaged in permanent occupations regularly engaged in specific occupations. They do not, however, give those who are transiently occupied in gainful industries; their chief work being the charge of their homes. Of these there is a large number.

Table XIII. is a statement of the Educational Status of the people based upon the Census inquiries respecting ability to read and write.

The inquiry included 4,777,838 persons, 55,401 Indians (respecting whom merely the general population statistics were procured) being eliminated.

The 4,777,838 persons divided into three groups stand thus:—

1st. Those 20 years old and upwards.

2nd. " between 10 and 19 years of age.

3rd. " under 10 years of age.

Of the first group there were able to read.....	2,135,461
---	-----------

" second " " " .....	958,435
----------------------	---------

" third " " " .....	289,897
---------------------	---------

Making of the population of Canada a total able to read of 3,383,793

This shows that 70·83 per cent of the people of all ages can read.

Taking the three groups and examining them as to their capacity to write as well as to read, we find—

In the first (Adult) group.....	2,029,404
---------------------------------	-----------

" second (Youths) group .....	926,196
-------------------------------	---------

" third (Children) " .....	221,067
----------------------------	---------

Making a total able to read and write of .....	3,176,667
--	-----------

and showing that 66·5 per cent of the total population can write.

mécaniques, et l'autre dans le commerce de vente—la dernière, d'après leur opinion, étant considérée comme la plus importante des deux, est entrée par l'énumérateur avec les établissements industriels dans le tableau VI, et de plus est entrée dans le tableau des occupations comme appartenant au commerce, et c'est pour cette raison que certaines contradictions existent entre les tableaux des occupations et ceux se rapportant aux ouvriers employés dans les établissements industriels. Les pêcheurs sont souvent des cultivateurs, et suivent les deux occupations, se donnant comme cultivateurs pour le recensement, vu qu'ils attachent plus d'importance à cette dernière occupation qu'à celle de pêcheurs.

Dans l'introduction du deuxième volume du recensement de 1881 nous y lisons les remarques suivantes : Sous le titre "d'établissements industriels" on a ajouté dans le troisième volume de cet ouvrage des détails relatifs aux divers emplois exercés. Mais il ne faut pas oublier qu'il ne saurait y avoir un accord parfait entre les deux exposés, vu qu'ils ont rapport à deux états de choses différents, l'un donnant le nombre de mains employées dans diverses industries à la semaine, au mois ou à l'année, l'autre mentionnant l'occupation à laquelle telle personne donne la plus grande partie de son temps.

Ces observations s'appliquent aussi aux rapports du recensement de 1891.

Une contradiction évidente se fait sentir pour ce qui a trait aux garçons, sous la rubrique "établissements industriels" et sous celle des "occupations." Dans le premier cas ils sont entrés avec les autres employés, et dans le second, ils sont rapportés comme allant à l'école, ce qui, en effet, se trouve être leur principale occupation.

De telles contradictions semblent être inévitables. La règle générale suivie a été celle employée par les directeurs du recensement en Angleterre. Pour la première fois nous avons entré dans le recensement les occupations de la femme. Les rapports montrent le nombre de femmes employées dans des travaux tout à fait spécifiques. Ces rapports, cependant, ne donnent pas le nombre de celles qui ne sont employées que temporairement dans des industries rémunératives, leurs principales occupations étant de voir au soin de leurs maisons. De ces dernières on en compte un grand nombre.

Le tableau XIII est un état montrant le degré d'instruction de la population, d'après les données du recensement, relativement au nombre de personnes capables de lire et écrire. Cet état contient 4,777,838 personnes. Nous avons éliminé 55,401 Sauvages sur lesquels on avait recueilli tout spécialement une statistique générale de la population.

Les 4,777,838 personnes sont divisées en trois groupes :—

- 1e. Les personnes ayant 20 ans et plus.
- 2e. Celles entre l'âge de 10 et 19 ans.
- 3e. " de moins de 10 ans.

Du premier groupe pouvaient lire.....	2,135,461
Du second     "         " .....	958,435
Du troisième     "         " .....	289,897
Faisant un total de la population du Canada pouvant lire de	3,383,793

Ceci démontre que 70·83 pour 100 du peuple de tous les âges peuvent lire.

Réunissant ensemble les trois premiers groupes, et examinant ceux qui peuvent lire et écrire, nous arrivons au résultat suivant :—

Dans le premier groupe (adultes).....	2,029,404
" second     " (jeunes gens).....	926,196
" troisième     " (enfants).....	221,067

Donnant un total pouvant lire et écrire de..... 3,176,667 montrant que 66·5 pour 100 du total de la population peuvent écrire.

---

Of the adult population numbering 2,526,330 persons, 84·65 per cent. can read and 80·34 can both read and write.

Tables XIV.-XVI. require no explanations.

In connection with the Census, 18 Bulletins have been issued to date.

These are—

- Bulletin No. 1. Population of cities, towns and villages for 1881 and 1891.  
" " 2. Population of Ontario by sub-districts for 1871, 1881 and 1891.  
" " 3. Population in detail of the Eastern Provinces for 1871, 1881 and 1891.  
" " 4. Population of Quebec for 1871, 1881 and 1891.  
" " 5. Population of Manitoba, British Columbia and North-west Territories.  
" " 6. Dwelling places of the people.  
" " 7. Live stock in the North-west Territories.  
" " 8. First Report on Industrial Establishments.  
" " 9. Religions of the people.  
" " 10. Second report on Industrial Establishments.  
" " 11. Nationalities of the people.  
" " 12. Third report on Industrial Establishments.  
" " 13. Wages of artisans and mechanics.  
" " 14. Mortality of the people.  
" " 15. Causes of death in Canada.  
" " 16. The defective classes: Insane, Blind and Deaf-mutes.  
" " 17. Education in Canada.  
" " 18. Occupations of the people.

The demand for these has been great and some of the earlier ones are out of print.

---

De la population adulte, qui compte 2,526,330 âmes, 84·65 pour 100 peuvent lire, et 80·34 peuvent lire et écrire.

Les tableaux XIV-XVI n'exigent aucune explication.

Dix-huit bulletins se rapportant au recensement ont été publiés jusqu'aujourd'hui, savoir :—

- Bulletin N° 1. Population des cités, villes et villages pour 1881 et 1891.
- “ “ 2. Population des sous-districts de la province d'Ontario pour 1871, 1881 et 1891.
- “ “ 3. Population des provinces maritimes pour 1871, 1881 et 1891.
- “ “ 4. Population de la province de Québec pour 1871, 1881 et 1891.
- “ “ 5. Population des sous-districts de Manitoba, des Territoires du Nord-Ouest et de la Colombie-Britannique.
- “ “ 6. Maisons habitées en Canada.
- “ “ 7. Animaux de ferme des Territoires du Nord-Ouest.
- “ “ 8. Premier rapport sur les industries manufacturières.
- “ “ 9. Religions.
- “ “ 10. Second rapport sur les industries manufacturières.
- “ “ 11. Nationalités.
- “ “ 12. Troisième rapport sur les industries manufacturières.
- “ “ 13. Gages.
- “ “ 14. Décès.
- “ “ 15. Causes des décès.
- “ “ 16. Personnes atteintes d'infirmités.
- “ “ 17. Instruction.
- “ “ 18. Occupations.

Il y a eu une forte demande de ces bulletins, et les premiers qui ont été publiés ont presque tous été distribués.
